At the Central International Night Poster Making everyone did very well. Many of the students that attend Central came and helped us with the poster that we will be presenting ourselves with. Many helped with cutting the pictures and others just drew pictures that really stood out. Some students drew pieces of clothing, dragons and even a section of the Great Wall of China. Garrett and his father made China's and Taiwan's Flag on the poster. There were many topics that we used like Daily Life, food, clothing, signs that represent China and architecture. These main components were organized to help the students of the night understand. Martin helped draw and paste the pictures and Dylan and I helped make and control the participants. Everyone did well cleaning the scraps and makers up from the ground and table.

Everyone did a great job and we accomplished what we wanted. Thank you for coming out and joining us for making the posters.

Sincerely,
Austin Ing
